MacX.400 is easy to install

- Would you rather pay a systems engineer for two days or press the button?

Welcome to Apple MacX.400
Your Macintosh needs certain software to use MacX.400 Services.
The Installer places this software in a folder called "MacX.400 Folder".
MacX.400
MacX.400 Folder
"Easy Install" chooses and installs the MacX.400 MTA software, and the MacX.400 Configuration application in the MacX.400 folder.
Use "Customize" if you would like to choose which software to install.
OK

MacX.400 is easy to configure
